100 BARRELS OF OIL PER DAY

**BIG WELL COMES IN ON LEASE
PROMOTED BY
F. H. YATES.**

A large oil well was drilled in last Friday on a lease obtained in the Irvine field by F. H. Yates about three months ago. The well is generally estimated by oil men to be good for 100 barrels per day. The lowest estimate by those who know the field is fifty barrels. A tank was placed on the location Wednesday and the well was to have been pumped yesterday for the first test. We have not learned the result.

Mr. Yates and his associates are to be congratulated upon their lucky strike. The next well will be started on the same tract within a few days, and this will be followed by others as rapidly as possible. Five or six wells will be drilled on the tract. The depth of these wells is between 700 and 800 feet.

Mr. Yates procured this lease in the midst of the developed territory and there was never much doubt about getting good wells.

The Irvine field is now producing more oil than any other field east of the Mississippi river. It is the largest and most productive shallow field ever discovered in the United States. Kentucky is no longer known as a barren or unprofitable oil field.

A SLUMBER (7) PARTY

Miss Margaret Lou Chaffin was the charming hostess on Monday night of this week at her home on Lady Washington street, to a number of Louisville friends. In the early evening several young ladies and young men gathered there and spent a delightful few hours, the girls of the party remaining for what they called a "slumber" party but what has been more properly named by neighbors and by members of the household in which it is held, a "slumberless" party. Of the twelve invited only two were deprived of the enjoyment of the affair, Miss Helen Vinson and Miss Lucille Clay, who were out of town. A midnight lunch was served, and this was one of the most enjoyable features of the happy occasion. The guests were Misses Rachel Johnson, Vivian Hayes, Grace Burns, Elizabeth Conley, Grace Sammons, Dixie Byington, Sue Bromley, Agnes Abbott, Kathleen Lackey and Jennie Bromley.

ERROR IN DEED TO VALUABLE OIL LANDS.

By some unexplained error in a deed made eight years ago, several unsuspecting persons in Winchester have come in possession of 172 acres of land in Powell county on which there is already nine producing oil wells and others in prospect.

The land is a part of several thousand acres known as the "Cottage Furnace" tract, sold by a master commissioner several years ago. Examination of old records showed that the 172 acres had never been transferred and the title rests in the heirs of Joe McKinney. Morgan and J. W. McKinney, of Winchester, are among the heirs of the tract.

The best well yet drilled on the south side of Kentucky River was drilled in yesterday by Gaines, Marcus & Neely on the farm of Chas. Rice, located on the South Fork of Station Camp. It is reported that the pay was reached at a depth of 260 feet and is classed as a 100-barrel well.

This is decidedly the largest well in the south section of the field and has served to renew confidence and interest in that section. The owner of the land, Chas. Rice, when oil was found on a neighbor's farm, became so excited, his mind became unbalanced and he is now undergoing treatment at the State Institution at Lexington.

DEATH OF YOUNG WIFE AND MOTHER

MRS. ROBT. AKERS, FIRST OF F.
M. SEE'S 15 CHILDREN
TO DIE.

Mrs. Mollie See Akers died at the home of her parents, Mr. and Mrs. F. M. See, on Lick creek, Sunday night, Aug. 11, 1916, after a considerable period of suffering, and her remains were deposited in the Shannon burial grounds on Sunday. The services were conducted by Rev. L. M. Copley. Mrs. Akers was about 33 years old, and leaves a husband and five children to mourn her loss. The oldest child is 11 years and the youngest 3 years. There are four girls and one boy. Mrs. Akers was a christian woman of the highest type of character, having been a faithful wife and dutiful mother, and when the end came she was in an ecstasy of happiness born of her strong faith and long experience, and she passed away shouting the praise of her Savior. Our homes and society can ill afford to lose such noble women for they are so much needed these days, but God knows best what to permit and so we say "Thy will be done."

Robert Akers, the sadly bereaved husband, is the same age as his departed companion and was born and reared in this community. He is a man of fine character and intelligence, and was once Deputy County Clerk here. He is a son of John Akers, a well known and respected citizen of our county. Mr. Akers had but recently moved to Michigan, but the falling health of his wife caused him to bring her back in hope of relief. He will return to his home in Michigan within a few days and remain there permanently with his children. In this sad experience he and his children have the sincere sympathy of all who know them, and we commend them all to the favor of Him who doeth all things well.

CHICAGO FIRM GETS RAILROAD CONTRACT

**BALTIMORE & OHIO WILL BUILD
ITS SECOND LINE TO
ELKHORN MINES.**

Construction of an important line to new coal mines in Kentucky will soon be started by the Baltimore & Ohio Railroad Company. The Bates & Rogers Construction Company of Chicago will build the Long Fork Railroad from a connection with the Chesapeake & Ohio Railway in Floyd county at the forks of Beaver Creek, the route being southward up the left fork of that stream to its headwaters at Weeksbury, in Knott county, a distance of 26 miles. The new line which will be side tracked and built for heavy traffic, will have five tunnels ranging from 140 feet to 775 feet long.

Weeksbury is a new town established by the Elkhorn Gas Coal Mining Co., which is building an extensive mining plant there and will be prepared to ship out large quantities of coal as soon as the railroad facilities are provided. Preparations for this construction have been under way for some time, several parties of engineers having gone over and thoroughly investigated a route during the last five years. The beginning of the line will be at a point on the Chesapeake & Ohio Railway 10 miles south of Prestonsburg, Ky., and about 30 miles north of Shelby, at which latter point the Baltimore & Ohio already has another detached line which runs into the Elkhorn field of the Consolidation Coal Co. The coal from the Long Fork line now to be built will be taken to the market over the Chesapeake & Ohio and Baltimore & Ohio lines, as is the coal taken out over the Sandy Valley and Elkhorn, which is the name of the older coal mine railroad. Some of this coal, and maybe much of it, will go to the Great Lakes over the Cincinnati, Hamilton & Dayton road, which is controlled by the Baltimore and Ohio.

In this connection it is important to note that the Baltimore & Ohio made surveys some time ago for a line from Kenova, W. Va., along the Big Sandy Valley, practically paralleling the C. & O. Railway with the idea, it is understood, that some day a double track through the valley to get out the coal rapidly might be necessary. There has not as yet, however, been any announcement of an official nature covering this plan.

BELIEVED MURDERED FOR HIS MONEY.

An Australian, whose name was not learned, was killed last week in a coal mine of the Turney Mining Co. at Stone, Ky. It was at first thought that the miner had been killed by a mine shot but there are now suspicions that he was murdered for his money and thrown into the mine. This theory is strengthened by the fact that there was but one injury on the man's head and that directly above where his body was found there was an imprint on the roof of the mine of an axe point. The Australian was known to carry considerable money on his person.

A SLEEP WALKER FATALLY INJURED

**FALLS FROM THIRD STORY WIN-
DOW OF PIKEVILLE HOTEL
WEDNESDAY NIGHT.**

The habit of walking in his sleep brought death to Kenna Chapman, of Catlettsburg, a traveling salesman for the Patton Milling Company, who succumbed at the Huntington general Hospital late Thursday night. Mr. Chapman, who was about 32 years of age was at Pikeville Wednesday night. He was in a room on the third floor of the Jefferson Hotel there. It was well known that he walked in his sleep and the theory is that he had risen from his bed and gone to a window where he sat down there was a screen nailed across the window and this gave way under his weight. He awakened as he fell and screamed, the cry attracting the attention of a man in a room across a court from him. When this man looked he saw Chapman hanging to the window ledge by his hands. Before he could reach him, however, he had fallen to the pavement thirty feet below.

He was rendered unconscious by the fall and never again regained his senses. He was taken to the Huntington Hospital where examination revealed a fracture at the base of the brain, a fracture of the left leg, and rupture of the bladder.

The surgeons pronounced the case a practically hopeless one, but at the insistence of friends of the injured man an operation was performed Thursday night. The man's body was taken to Catlettsburg for interment.

Mr. Chapman's wife died less than a year ago and left him the care of two fine little boys, John and William, to whom he was most devoted.
